

# Taking on the challenge

ELI Caballo and Andy Zakeli of Oak Flats are taking up the challenge of a life time with the Sustainable Illawarra Super Challenge.

Eli and Andy are just one of a hundred Illawarra families who have come on board the exciting Sustainable Illawarra Super Challenge and will be supported over the next 12 months to achieve their own goals to become more sustainable.

With the help of their children Ryan, 3 and Laila, 18 months, the Caballo-Zakeli family will work to create a vegetable garden, compost heap and even a chicken coop or worm farm.

During this time they'll be sharing their progress and stories with *The Wollongong & Northern Leader* so that everyone can all be inspired by their fantastic efforts.
